

Cats in Need of Barn Homes

We have healthy cats
in need of new outdoor homes!

Welcome cats into your barns, horse stables, or other outdoor shelters today!

We spay or neuter, vaccinate, and microchip the cats for you. You provide daily food and water, shelter and long-term veterinary care. Together, we will give these special cats a second chance at living a happy and healthy life.

Please contact us today to learn more about this lifesaving program.
